

**The University of Michigan
Computing Center
Dedication Ceremonies**

Friday, 15 October 1971

Chrysler Center

Presiding	Vice-President A. Geoffrey Norman
Introduction of Distinguished Guests	Dr. Norman
Address	Dr. William F. Miller Provost, Stanford University
Remarks	President R. W. Fleming
Introduction to Computing at The University of Michigan	Mr. Gerald N. Cederquist, Chairman, Computing Center User's Group

Guests will be invited to tour the Computing Center at the conclusion of the ceremony.

Special Lecture Series:

The Problems and Future of Computing

As part of the celebrations marking the dedication of its new building, the Computing Center is sponsoring a series of public lectures on the theme "The Problems and Future of Computing." The talks will be given by three distinguished computing scientists whose careers reflect the great diversity of activities in which computers have come to play increasingly important roles.

8 p.m. Tuesday, 26 October 1971

The Viability of Large, Integrated, and Shared Data Bases

E. F. Codd, Ph.D.
IBM Research Laboratory
San Jose, California

8 p.m., Friday, 5 November 1971

The Changing Balance in Information Systems

Robert Spinrad, Ph.D.
Vice-President for Advanced Design
Xerox Data Systems
Xerox Corporation
El Segundo, California

8 p.m. Wednesday, 10 November 1971

Medical Applications of Computing

G. Octo Barnett, M.D.
Director, Laboratory of Computer Science
Massachusetts General Hospital
Harvard Medical School

Chrysler Center Auditorium
